## ABOUT US

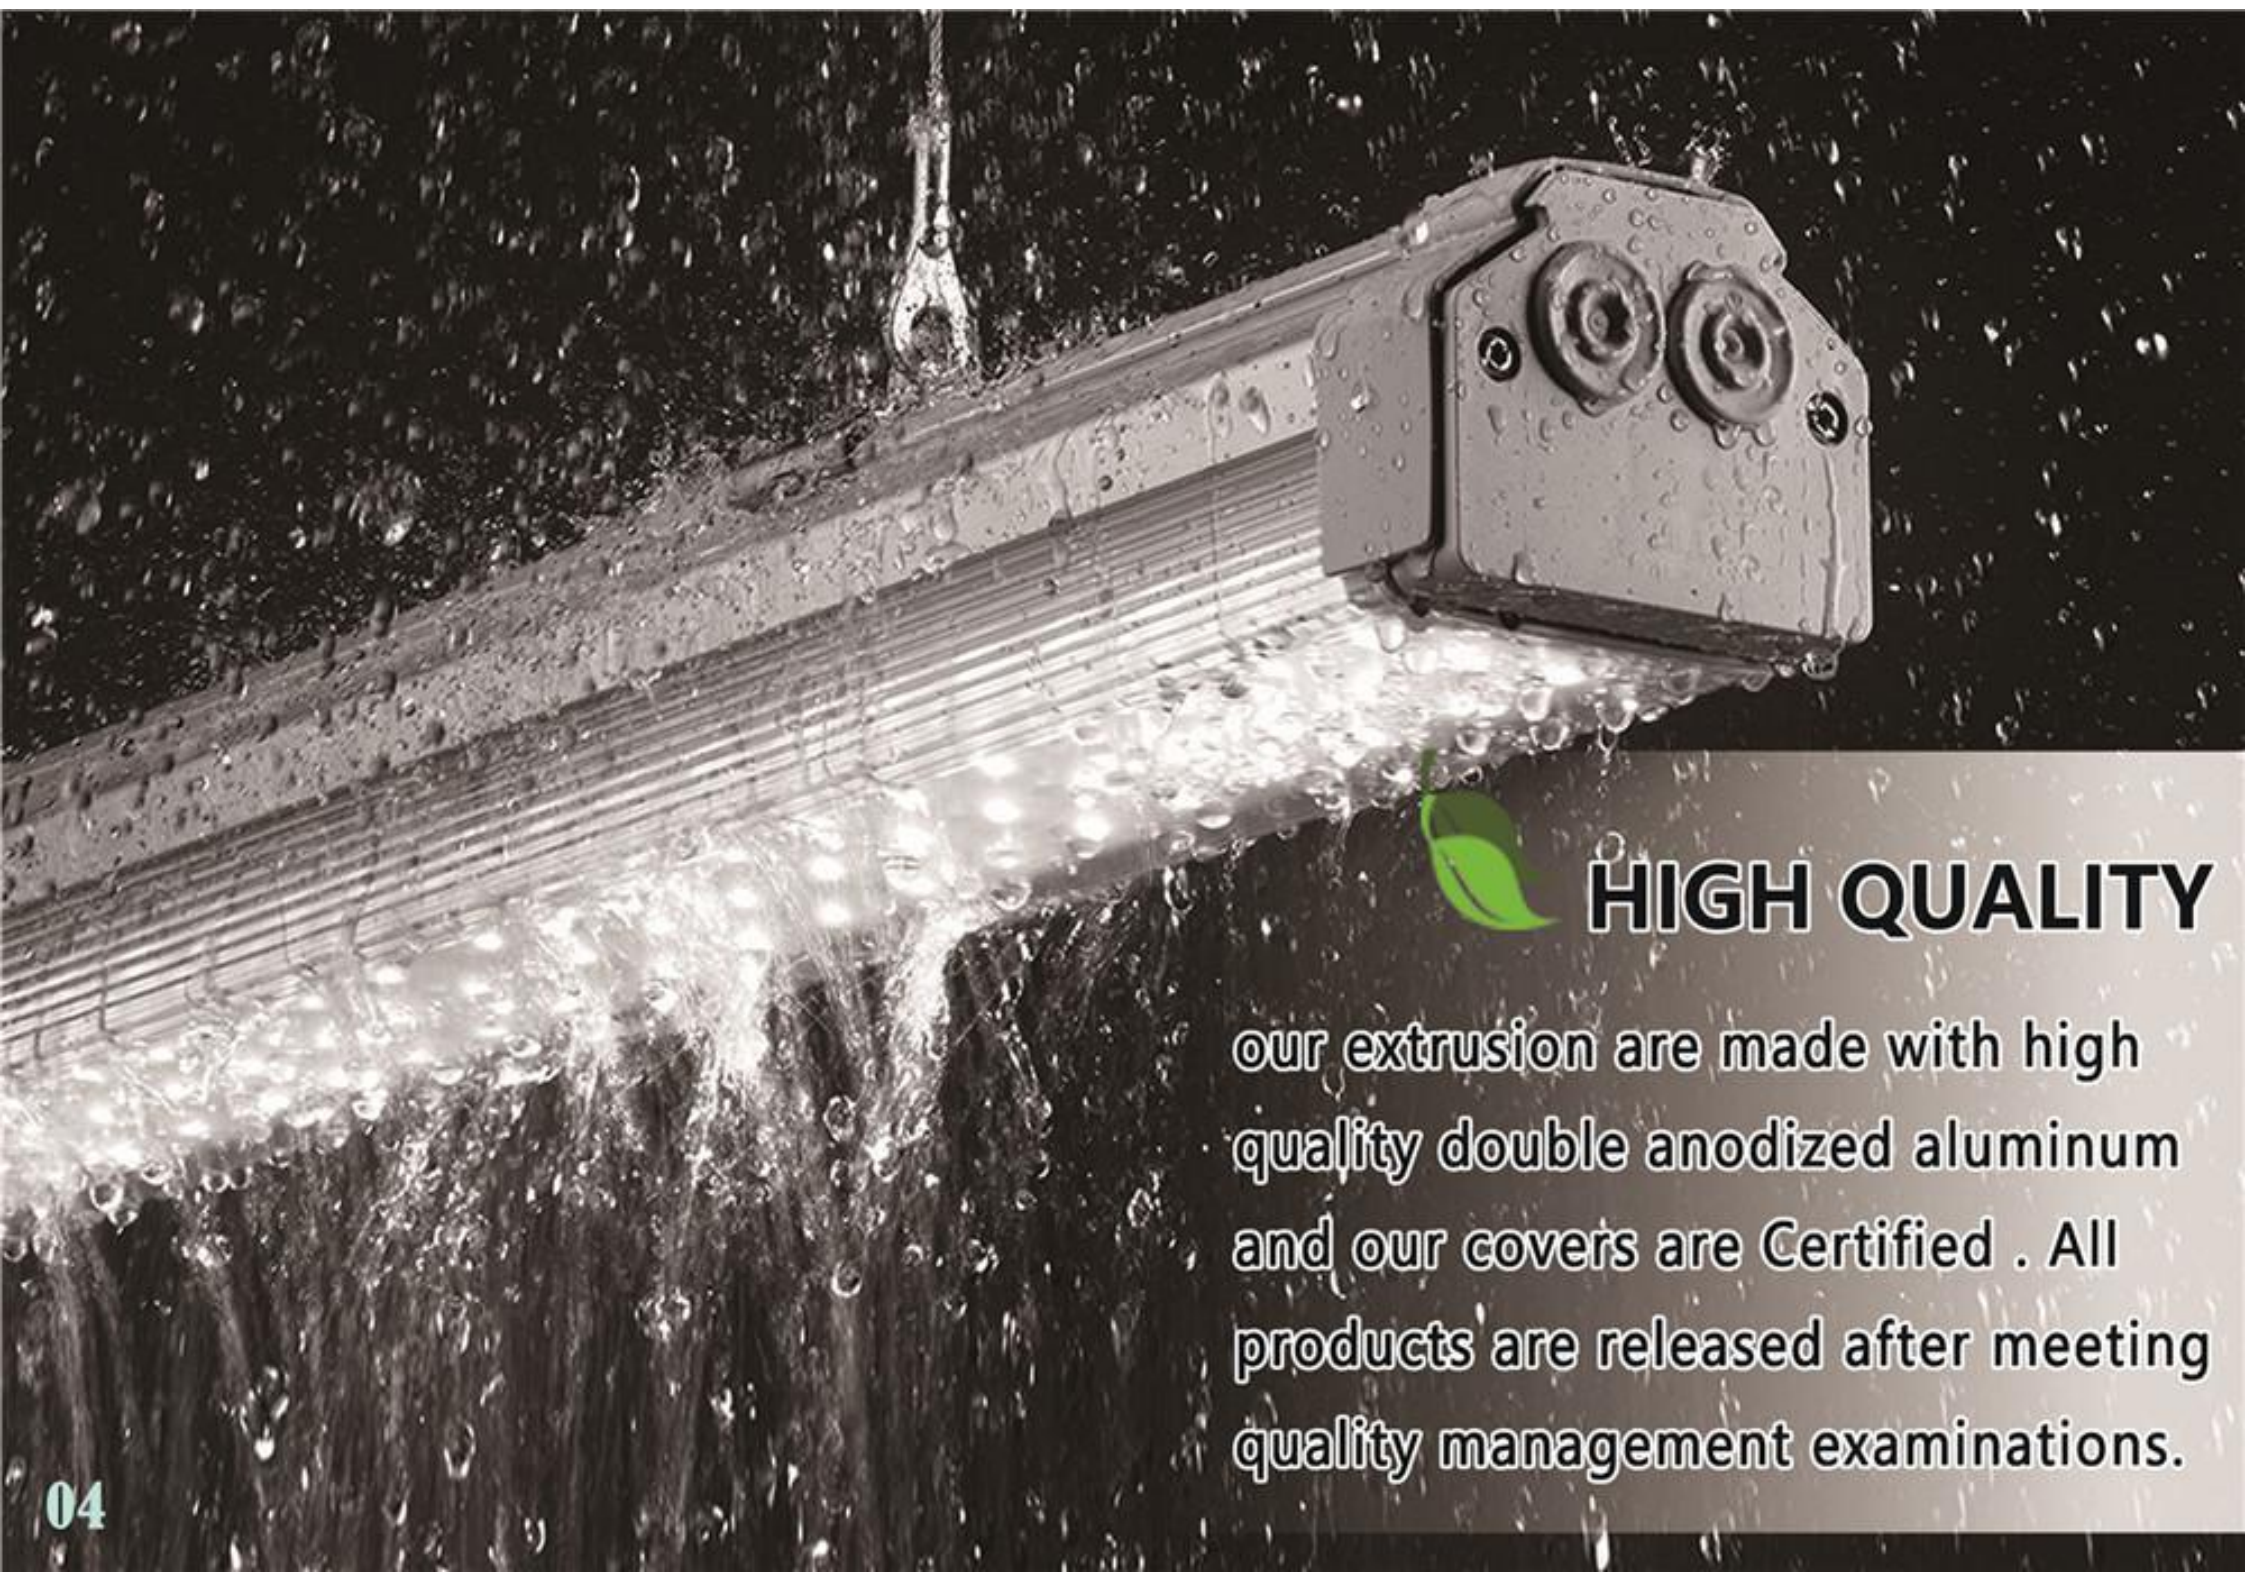

Anshan Zhongjda Industry Co.,Ltd.

- 🌿 ZJD Company's underlying idea is to create high quality, modular component systems to integrate flexible LED circuits into everyday living space in order to meet the high expectations and needs of our customers.
- 🌿 To go one step further than assembling standard light fixtures, ZJD company designed a wide range of extrusions, covers, end caps, fasteners and other accessories that enables the customer to customize and adjust to their individual needs.
- 🌿 As a worldwide supplier of this component system, ZJD has quickly become a leader in the extrusion technology and is being requested on many building projects throughout the world. The US and Europe have embraced this form of LED lighting integration and has caused an increase in demand for different designs. ZJD is forever developing new designs and evolving our component system based on our market research and feedback from some of our best customers and representatives.
- 🌿 ZJD Company's extended distribution network offers our products in many countries around the world: USA, Russia, Australia, Canada, and the majority of countries throughout Europe.

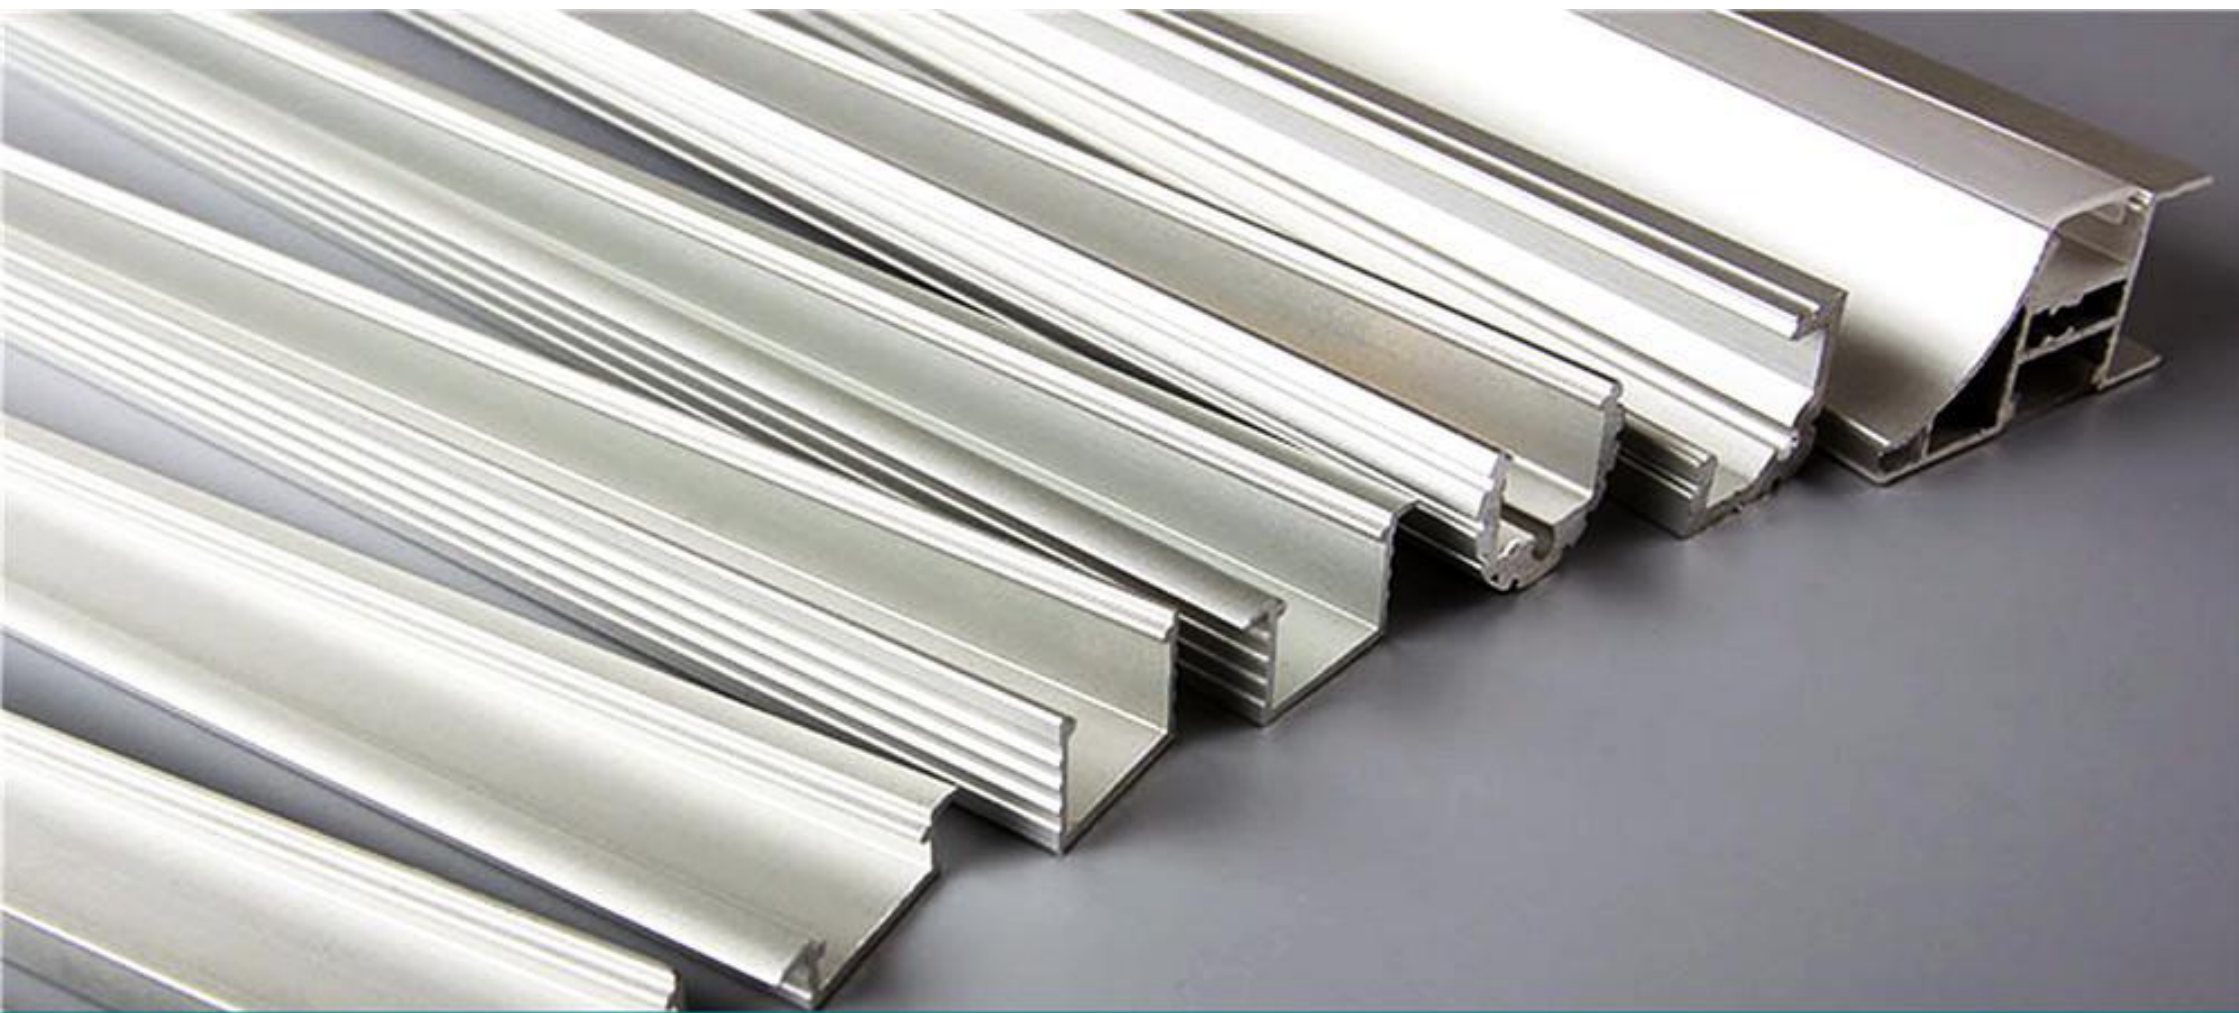

## **HIGH QUALITY**

our extrusion are made with high quality double anodized aluminum and our covers are Certified . All products are released after meeting quality management examinations.

## TECHNICAL SUPPORT

customers receive technical support and a dedicated sales person to speak with. We are a business you can trust with a great reputation of customer service and superior products.
